INTRODUCTION

While this guide may seem rather basic, it allows for users to further take apart their laptop or simply replace their battery for an improved battery life.

Step 1 — Battery

- Place your laptop face down in front of you.
- Slide the button in the top right corner to the right so that the orange marker is showing.
- Press the spring loaded latch to release the battery from the computer.

To reassemble your device, follow these instructions in reverse order.
